DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 17-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 17, lines 14-17, the phrases beginning with "optionally" are not considered to positively recite subject matter, and along with the parenthetical phrase (line 15) make the metes and bounds of the claim unclear. In claims 30 and 38, "the useful mass" and "the useful product" lack prior antecedent bases since these claim limitations were not positively recited in claim 17. In claim 37, line 1, "the microalgae" lacks prior antecedent basis since it is recited in the alternative in the claim (36) from which it depends.

Claim Objections

3. Claim 20 is objected to because of the following informalities: the period indicating the end of the claim is missing. Appropriate correction is required.
4. Claim 31 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 31 appears

redundant in that it recites the same subject matter as claim 17 without further limiting claim 17.

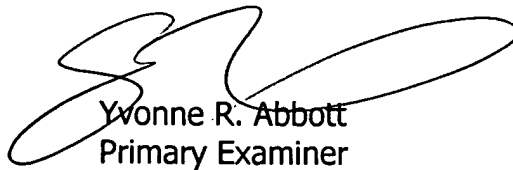

Allowable Subject Matter

5. Claims 1-16 are allowable over the prior art of record.
6. Claims 17-41 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
